

# I'm Watching the Children in the Water.

I will not leave until another  
adult has their eyes on the  
children in the water.

## My job is to prevent drowning:

- I will have NO distractions such as cell phones or magazines
- I will know how many children are in the water at all times
- I will continuously scan water back and forth for swimmers
- I will have a phone nearby for emergency only
- I know how to swim and have a life saving device nearby
- I will not leave this job until another adult replaces me
